MEMORANDUM FOR THE RECORD

SUBJECT: Energy Statistics for Major Consuming Countries  
(Primary Energy Consumption 1973 Estimate)

STAT

1. The attached statistical appendix was prepared for a series of 8 interdepartmental Task Force papers on international energy initiatives to be proposed by the U.S. at the 11 February 1974 Foreign Ministers conference, called by the President. The appendix was transmitted to Mr. John A. Knubel of the Federal Energy Office.

2. The following individuals participated in this collection:

1. Allocates imports on a direct and indirect basis - i.e., refined products from export refineries are traced to the source of the crude oil.  
 2. Crude oil only; excludes crude oil transshipped by the Netherlands to other West European countries.

1. This table illustrates the effect of the OAPEC decisions of 4 November and 25 December on Arab oil production through January 1974. Iraq did not sign the agreements and has not reduced production; Oman, which is not a member of OAPEC, is not expected to reduce production.

2. Including approximately one-half of Neutral Zone production.

3. Production reduced as a result of war damage to export facilities.

4. Dubai production reduced by offshore well fire.

5. Company forecasts where available; otherwise, OER estimate.
